

EXPERIENCE THE FIREWORKS OF THE FUTURE

Exploration Place will present a drone light show as part of the 50th anniversary Riverfest on June 4 and 5, 2022. Wichita has never before experienced a spectacle like this – a production that is more likely to be seen at occasions such as the Olympics or the Super Bowl.

ABOUT THE DRONE SHOW

- A fleet of 200 drones will be launched at dusk over the Keeper of the Plains.
- The drones are lighted and synchronized into aerial formations and choreographed to music.
- Engineering, technology and artistry come together to wow audiences.
- Hosting this show on two consecutive nights provides security in the event of weather interference.

**Viewable
for miles**

**Watched by
60,000+
each night
downtown**

**EXPLORATION
PLACE**

AT EXPLORATION PLACE

The absolutely best place to view this spectacular display – and enjoy the accompanying music – will be on the Exploration Place grounds on the banks of the Arkansas River.

Exploration Place will offer a ticketed event with prime viewing for approximately 2,000 guests each night.

The grounds will open at 6 p.m., with live music leading up to the drone light show at 10:00.

A special VIP experience will include food, drink and a reserved viewing place.
